

# Projects

As a part of our [visions and plans](#) we work on several projects:

- [Thermopot](#)
- [Reactors for receiving free energy](#)
- [Software](#)
- [Natural Knowledge](#)

You can join us or come up with another project if you will feel a possibility of including it into our common way. [We can discuss it](#) together.

You can also support us with [gifts or other cooperation](#).
